

## Wasserchemisches und -technologisches Kolloquium

Sommersemester 2019

### Vortragsankündigungen

**05.07.2019, Beginn 13:15 Uhr (SR 004, Geb. 40.50)**

**Strategy of waste water treatment at a major chemical production site**

Dr. Gerhard Zimmer, BASF SE, ESE/PU, Ludwigshafen am Rhein

**19.07.2019, Beginn 13:15 Uhr**

**Tailor-made constructed wetlands for the elimination of micropollutants from wastewater**

Prof. Dr.-Ing. Joachim Hansen, Research Unit Engineering Science, Urban Water Management, University of Luxembourg

**Characterising the influent macro-substrates of wastewater treatment plants and the impact of DOC portions on the degradation of xenobiotics during biological treatment**

M. Eng. Anne Christen, Research Unit Engineering Science, Urban Water Management, University of Luxembourg

Anmeldung nicht erforderlich.

Ort der Veranstaltung: EBI-Hörsaal, Geb. 40.50, Engler-Bunte-Ring 1a, 76131 Karlsruhe
